Geography of Recovery

Geography of Recovery

Cumulative Change in Employment Since the Beginning of the Great Recession

The Geography of the Recovery map is a dynamic visualization of cumulative employment gains or losses since the beginning of the recession for every metro area in the U.S. that has seasonally-adjusted data. The red and blue bubbles represents how much larger or smaller total employment is in any given month versus employment in December 2007. Simply press Play and watch the animation unfold...

[About TIP Strategies](#)

TIP STRATEGIES, INC. (TIP) is a privately held Austin-based economic development consulting firm committed to providing quality solutions for

Last fall, TIP was engaged by the Delaware Business Roundtable (DBRT), a group of more than 50 Delaware CEOs, to craft a strategic framework for pursuing a new long-term approach to economic development in the state. The final product, the Delaware Growth

Agenda, was released by the DBRT in July.
